MSc attachment programme: Terms and conditions

- The minimum period for doing the MSc attachment programme is three months.
 - During their project work, candidates must strictly follow all the laboratory's rules and regulations and timings. Students must strictly comply with safety rules inside the laboratory. The laboratory will not take any responsibility for the safety of the students beyond office hours.
 - The number of students admitted for the project work is based only on the requirement of R&D sections/Divisions and has no bearing on any quota.
 - There will be no guide from the University or college for this work. However, a co-guide from the department could be provided if desired. This should be clearly informed to KFR I with the name of the person in the letter from the HOD/Principal.
 - KFR I will have full intellectual property right on the work carried out by the student. However, if a paper is published out of the work, the student(s) name will be considered for the authorship depending on their contribution.
 - University/College undertakes the responsibility for any misconduct by the student(s).
 - The thesis/dissertation title/cover page will have the title of the work, name of the university where it would be submitted, student's name, his/her registration number (optional), name of KFR I scientist as supervisor, Division/Department where the work is carried out at KFR I and month and year of submission. This pattern has to be followed strictly by all the students irrespective of the guidelines stipulated for the same by the respective University/college.
 - Students are required to prepare their thesis in a required number of copies and get all the certificates signed in original in all the copies from their Department /college and finally get them signed in original by the research guide at KFR I. Three copies of the thesis/dissertation have to be submitted to the Research Guide at KFR I.
 - Any violations of the above will be viewed seriously, and non-compliance by the candidates/colleges/universities will result in total rejection of applications from the Department/College in the future.
-
